ABOUT ME

I am 28 years old, a quick learner, and highly adaptable. I work well in teams, offering support and clear guidance. I handle multiple tasks efficiently while maintaining quality. I have experience in technical analysis, IT, networking, and electronic security, and I'm always looking to improve processes and contribute to my team's success.

PROFESSIONAL SUMMARY

- Technical specialist with extensive experience in programming, network protocols, and technical support for electronic security systems. Proven ability to diagnose and resolve complex issues, integrate third-party tools, and support product development. Strong communicator, fluent in Portuguese, intermediate in English, and basic-intermediate in Spanish.

TECHNICAL SKILLS

- Programming: Python, HTML, CSS, JavaScript, JSON, GIT, GANs, APIs, CI/CD
- Networking: SFTP, SSH, TCP/IP, HTTP/S, DNS, DDNS, SSL/TLS, DHCP, RTSP, NTP, ONVIF, POE, UPnP, IEEE 802.1X, SIP
- Technical Support: Incident management (CSIRT/SIEM), Salesforce, firewalls, VPN, EDR (Bitdefender), antivirus, switches, custom scripting

PROFESSIONAL EXPERIENCE

HIKVISION BRASIL

Technical Integration & Support Coordinator 2026 – present

- Integrated Hikvision products with third-party software using ISAPI, OpenAPI, and SDKs to ensure hardware and software work together perfectly;
- Created Python scripts to automate device testing and make system validation faster and more efficient;
- Managed integration projects within HikCentral, focusing on connecting external data to improve system features;
- Coordinated complex projects involving facial recognition and access control, ensuring hardware and software compatibility;
- Provided technical support for firmware customization and special setups to meet specific client needs;
- Troubleshooted and fixed critical integration issues between Hikvision hardware and third-party management tools;
- Developed prototypes (PoCs) using RTSP video streams and AI for advanced security solutions;
- Wrote technical guides and documentation to help developers integrate Hikvision technology into their own systems;
- Acted as a technical advisor in meetings with clients and big tech companies, explaining Hikvision integration possibilities and resolving complex technical queries regarding system interoperability;

INTELBRAS

Technical After-Sales Analyst – Electronic Security 2022 – 2026

- Analyze and monitor products, diagnose medium/high-complexity issues, address security problems, and coordinate with R&D for solutions and interim fixes.
- Provide technical support to internal teams, service centers, distributors, integrators, sales reps, end customers, and regional bases.
- Execute quality and product management procedures, including work methods, KPIs, manuals, and technical bulletins.
- Support product development by gathering requirements, defining support structures, and ensuring readiness for internal/external assistance.
- Share knowledge on product hardware/software and processes with team members and partners.
- Key Achievement: Developed facial enhancement software used in critical environments, increasing system accuracy by over 25%.

Technical Support Analyst – Electronic Security 2021 – 2022

- Provided technical support and troubleshooting for electronic security products.
- Assisted CSIRT (SIEM) team with data leaks and security incidents, creating and managing incident protocols in Salesforce within SLA requirements.
- Developed custom scripts to resolve customer issues.
- Key Achievement: Led onboarding workshops for new employees, boosting team productivity and SLA compliance by over 5%.

Technical Support Analyst (Jr) – Electronic Security 2018 - 2021

- Supported customers and internal teams with technical issues related to electronic security.
- Troubleshoot network issues involving firewalls, VPN, passwords, ports, protocols, IP blocks, antivirus, and switches.

KOMLOG IMPORTAÇÃO LTDA

Technical Assistance Intern 2016 - 2017

PROJECTS

Intelbras Secure Face

- Developed a desktop application in Python with a interface for advanced facial image processing.
- Integrated with Intelbras Defense IA;
- Applied OOP to ensure modularity and maintainability.
- Impact: Increased in-store suspect identification accuracy by more than 25% in critical scenarios and reduced defective images across the database.

EDUCATION

Graduate Degree (360h)

- Artificial Intelligence and Machine Learning - Anhanguera University

Associate Degree (2,060h)

- Systems Analysis and Development - SENAI University

High School (3,200h)

- Federal Institute of Santa Catarina (IFSC)

LANGUAGES

- Portuguese - Native
- English - Intermediate
- Spanish - Basic - Intermediate

SOFT SKILLS

- Problem-solving
- Communication
- Teamwork
- Adaptability
- Customer service
- QLIK data analys (4h)
- SAP apps (8h)
